

# VIRTUS TRAINING SYSTEMS LEGACY STOCK TUBE ADAPTER FOR KWA RM4 SERIES RIFLES

The Virtus Training Systems "Legacy" Stock Kit transforms the look and feel of your RM4, enabling you to use **any** real steel MILSPEC full length stock (standard A2, Magpul MOE, PRS, etc.) on your KWA RM4 series rifle. The VTS Legacy kit is compatible with all KWA RM4 series rifles, and re-uses your existing main spring, recoil weight, end cap guide rod and recoil spring.

The three-piece tube is precision constructed of hard coat anodized 6082 T6 aluminum and is built to last. This is the perfect addition for anyone looking to setup a traditional M16A3/A4 style rifle or for that unique custom look not found anywhere else.

## Specifications

- 100% made in the UK!
- 6082 T6 Aluminum construction
